

Informational Brochure

Introduction

The purpose of this document is to enable you to understand our investment offerings and what to expect from them.

About Crystal Asset

Crystal Asset was formed in response to the need for improved discretionary wealth management services. Our market research found that a core financial consumer base was either under-invested or unhappily invested, due to concerns over cost, transparency, performance and quality within discretionary wealth management.

Crystal Asset focuses on the key aspects of investing: the team and process that guide the investments, security of the assets, the costs associated with the service and the technology and transparency underpinning it. We believe that by concentrating on these elements, our clients will have the best chance of achieving their goals.

Crystal Asset's online service is designed for medium to long-term investors with some prior experience of investing, and who are prepared to accept at least a modest level of market risk in exchange for strong capital gains. They will have at least \$1,000 to invest and are likely to enjoy the benefit of compounding.

Crystal Asset's optional advisory services are designed for both experienced clients and those with little or no prior experience of investing, and can be accessed on both an ad-hoc and ongoing basis.

Our Services

1. Discretionary Investment Management

At Crystal Asset, we offer extremely competitive returns, above current market expectations, with the same level of risk exposure.

We invest our client capital by engaging in high frequency trading. Our in-house traders work hard to ensure high returns are achieved, with low draw-down. Using a strategy developed over many years of trading, our traders aim to satisfy the aggressive investor seeking superior performance.

We also actively participate in the interbank lending market as lenders.

Our products are suitable for all class of investors who seek capital preservation, regular income flow and significant capital gains.

Every investor has automated access to their account online. Our powerful online tools, enable our investors to monitor investment growth, performance and submit automated requests concerning their accounts.

Account Types

Crystal Asset offers two investment account types to help you meet your

Account Type	Description
Standard	This is our entry account with the lowest minimum contribution giving investors the opportunity to access state of the art investment opportunities, not accessible to the average investor. Returning 8% - 10% monthly.
Dynamic	For higher net worth investors looking for opportunities to earn top tier returns on their investment. This investment account type returns 12% - 15% monthly on average.

All our investment accounts are denominated in US Dollars.

Minimum Investment Account

The minimum investment amount starts at \$1,000, for the standard investment account. While there is a minimum investment of \$100,000 for the dynamic investment account.

Both investment accounts bear low to medium investment risk.
